

PAW SIZING CHART

Sizing Tip: Choose a size which fits the entire paw, including toe nails. A snug fit is best. Boots that are too large may slip off!

TO MEASURE DOGS PAWS:

Place dogs front paw, standing up, with full weight on blank piece of paper. Mark from the longest toe nail and come straight back down to the back of the paw to make a second marking. Measure the distance between the two markings and refer to chart for size.

FITTING INSTRUCTIONS:

- Your dog will best acclimatize to MUTTLUKS outdoors so be ready to go outside immediately
- Open the Velcro® hook & loop fastener
- Stand over the dog. Bunch up the cuff and pull MUTTLUKS over the paw, like a sock. Hold dogs elbow with one hand and wiggle boot onto the dog with the other hand
- Pull Velcro® strap TIGHTLY around the boot and press shut
- Velcro® strap must fasten at the ankle. Cut excess Velcro®
- Take your dog immediately outside & enjoy!

Step out in style with matching coats & Muttluks!
Belted Coats, Reversible Snowsuits, Rainsuits.
